Subject: Letter of Appreciation for the Centre for Management of Conflicts (CMC)

The Centre for Management of Conflicts has worked with great distinction with the OSCE Monitoring and Good Governance Department in the OSCE Spillover Monitor Mission to Skopje.

As Project Implementing Partner, the Centre exercised considerable skills, knowledge and a high level of dedication to their work.

Through our joint efforts, a sizeable project, "Youth Leaderships Conferences" was implemented successfully in the country. In the framework of the project the Centre conducted a series of specialized workshops that were extremely well received by the participants of the project.

I strongly recommend the Centre for Management of Conflict to any unit or organization where their professionalism will undoubtedly be an invaluable addition.

Sincerely,

Takashi Koizumi
